THIRTY-EIGHTH YEAR No. 48.

EDUCABLE CHILDREN IN HANCOCK COUNTY GIVE TOTAL 447

County Superintendent D. J. Everett Has Completed Enumeration—Gives Interesting Figures, Both For White and Colored.

According to the school laws of Mississippi an enumeration of educable children must be made each two years, and 1929 is the year set by law for such an enumeration. The work of securing accurate information regarding educable is handled through the county superintendent of education who in turn requests the heads in each district to make the enumeration for that district.

County Superintendent D. J. Everett has completed the enumeration, and has filed this enumeration list, which serves as a basis for the county funds received per capita in the county for two years after this year.

The enumeration shows a total of 4,447 educable in the county of which 3,285 are white children and 1,162 are negroes. The educable age is from 5 to 21 years.

The list of white children follows: rural consolidated districts, boys 490, girls 435, total 925; consolidated school districts, boys 614, girls 584, total 1,198; separate school districts, Bay St. Louis, boys 480, girls 485, total 965; Waveland, boys 99, girls 108, total 207; Grand total, 3,295.

The list of negroes follow: rural unconsolidated, boys 345, girls 342, total 687; separate school districts, Bay St. Louis, boys 235, girls 175, total 410; Waveland, boys 27, girls 28, total 55; grand total of 1,162 of negroes.

The enumeration this year shows a decrease of 272 educable over the enumeration made two years ago. Of this decrease 65 are whites and 207 blacks.

The enumeration made two years ago shows a total of 4,719 of which 3,360 were whites and 1,359 were blacks, and on a basis of this enumeration the county received its per capita fund last year and will receive it this year on this listing. The per capita fund pays this year \$2.74 for each educable in the county, but the per capita fund will be set for next year by the legislature.

The enumeration in 1927 was divided as follows for white rural consolidated districts, boys 532, girls 536, total 1,068; consolidated districts, boys 594, girls 586, total 1,180; separate school districts, Bay St. Louis, boys 674, girls 479, total 953; Waveland, boys 75, girls 84, total 159; grand total of 3,360 whites.

The enumeration of negroes in 1927 follows: rural consolidated, boys 377, boys 399, total 776; separate school districts, Bay St. Louis, boys 235, girls 285; total 520; Waveland, boys 36, girls 27, total 63; grand total 1,359.

FLOWER DISPLAY

Members of the Woman's Missionary Society of the First Methodist church will be at the Peerless Ice Cream Shop on North Beach Boulevard each day beginning Monday and continuing through All Saints' Day where they will be prepared to take orders for flowers for All Saints'. The flower display will be arranged at this shop by Allendale Flower Shop. After All Saints' the ladies will continue to take orders by phone for flowers as previously announced. The Society receives a commission from all flower orders taken and the proceeds will be devoted to the general fund of the Society, it was announced.

HALLOWEEN PARTY

The Woman's Benefit Association will hold a Hallowe'en party Monday night, October 28, 7:30 o'clock at W. B. A. den to which all members are invited. All members are asked to wear costumes. A number of interesting games and contests are being arranged suitable to the season.

GETTING READY FOR XMAS SEAL DRIVE IN CITY AND RURAL CO.

Miss Mary Perkins Has Been Appointed Hancock County Chairman of Seal Sale For Campaign To Combat Tuberculosis.

Miss Mary Perkins of Bay St. Louis has been appointed Hancock chairman of the Mississippi Tuberculosis Association and will have charge of the annual Christmas seal sale for the benefit of tuberculosis eradication and prevention work. She received this appointment a short time ago from Mrs. John Pfister of Jackson, state executive secretary of the association.

Miss Perkins states that she is making plans for the sale, and will appoint her various committees to serve in all sections of the county in sufficient time before the opening of the seal sale.

FINE SERMONS AT BAPTIST REVIVAL NOW IN PROGRESS

D. H. L. Martin of Lexington Miss., Interests Large Congregations Nightly.

Fine sermons nightly have characterized the services at the First Baptist church during the revival now in progress at which Dr. H. L. Martin of Lexington, Miss., is the speaker and Rev. W. S. Allen, pastor, is leading the singing. Dr. Martin is the pastor of the church of Lekington and is well known throughout North Mississippi where he has held a number of revivals. This is his first revival on the Coast but he has preached at Hattiesburg.

Rev. Allen has expressed his pleasure in having secured the services of Dr. Martin for this series of ten days revival services and invites everyone to attend the sermons which are delivered nightly at 7:30 o'clock.

Special preparations are being made for the Sunday services both morning and night at which time it is urged that people from all parts of the county and along the Coast take advantage of the opportunity to hear Dr. Martin. Those who have heard him speak state that his sermons are not only deeply spiritual but are replete with beautiful and poetic thoughts which make them masterpieces of oratory as well as fine religious messages. Opening with a sermon on the Lord's Prayer, preaching as his second sermon on the Life of Jesus, he gradually changed his sermons to include various phases of Christian living.

The revival will continue through the middle of next week.

ENTHUSIASTIC IN BALL PRACTICE

Twenty-eight girls and young women of the community were out for practice Tuesday night for the independent girls basketball team and a most enthusiastic practice at the college gym resulted. Miss Mary Perkins, an expert coach, was present to aid the girls. Reports are that there are enough good players to fill every position on the team several times over and the practices are equal to match games in activity. The girls announce that they are almost ready to take on all comers. It is rumored that several independent teams from New Orleans are contemplating games with the local team.

ATTEND CONVOCATION AT PASS CHRISTIAN

Among those from Christ Episcopal church who attended the Coast Convocation this week in Pass Christian were Mesdames W. J. Chapman, C. L. Horton, K. W. Pepperdine, W. W. Nye and C. L. Skatvold. They were present at the various services which included the ordination of one minister, Rev. J. Ord Cresap. They report the activities shown at the convocation to be most interesting.

Louisville And Nashville Railroad National Advertising Campaign Opens

THE MISSISSIPPI Gulf Coast is to be featured in 19 national magazines, 500 daily newspapers of the United States as ideal winter play ground, altogether attractive and lovely, easily accessible and charming gathering spot for northern, eastern and western people, according to an announcement issued by the Louisville and Nashville Railroad Company. This company is opening its annual national advertising campaign and is for the fifth consecutive year broadcasting in picture and reading form the glories and beauties of the Coast. Literally thousands of dollars will be expended in the next few months by this company, every cent of which will be devoted to telling people of far sections of the United States what a nice place the stay a while or stay a long time.

In discussing this national campaign W. A. Russell of Louisville, passenger traffic manager, states:

"For the fifth consecutive year, the Louisville and Nashville Railroad Company will do an extensive amount of magazine advertising this fall and winter, to attract people to the Gulf Coast Section.

"Cumulative effect of this advertising is being felt more and more by residents of the Gulf Coast.

"Continuation of this magazine advertising on the part of the Louisville and Nashville Railroad Company evidences the confidence of its officials in the Gulf Coast territory, and we confidently expect the season of 1929-1930 to be the biggest in the history of the Coast.

"In addition to the magazines advertising, the L. & N. will also continue the custom of years and carry Gulf Coast advertising in several hundred daily newspapers throughout the Northern states and make a thorough distribution in the North and East of its attractive, illustrated, descriptive Gulf Coast folder and other publications pertaining to the Coast."

Thousands Here To See.

"Not only is the L. & N. planning national advertising which will interest prospective tourists to visit the Coast, but the company is doing a great deal to make the Coast a section, and over one million people who read the ads and each person who reads will be enticed to plan to come to the Coast.

Again this week also for many more weeks, we reiterate our belief that New Orleans, La., Mobile, Ala., and Gulfport, Miss., as cities—the native Mississippi Gulf Coast as a section, and over one million acres, now idle, of cut over pine land in South Mississippi, will now go ahead faster and farther than any other locality in America.—Editor Echo.

COAST FAIR WILL OPEN MON. A. M.

Gulfport Will Be Scene Of
Annual Mississippi Coast
Fair Monday Through
Saturday.

The annual Mississippi Coast Fair will open at the fair grounds at Gulfport Monday morning of next week and continue through the following Saturday. This is the first year in which the fair has been held for six days. The official opening of the fair will take place Monday night, 8 o'clock, before the grandstand just preceding the free acts. The committee in charge announces that invitations have been extended to the governor, lieutenant governor, members of the board of supervisors of Harrison County, city commissioners and various officials from all parts of the Coast to participate in the formal opening and brief address will be made by several notables.

Manager A. G. Johnson has been active for several weeks in getting the main exhibit hall in condition for the opening of the big fair which it is predicted will be "bigger and better" than ever before and the beautifully decorated building is a credit to the fair association. Practically all booths at the fair had been sold some days ago and excellent exhibits are being planned.

All community exhibit booth spaces have been taken and fine farm exhibits are expected. Many changes in arrangements have been made especially in the woman's work and floral departments which will be more attractive even than in past years, it is believed.

The Behnardi Shows have been secured as the midway attractions and come highly recommended. Good free acts will be presented twice daily. The Gulf Coast Military Academy band will furnish the music for the free acts. Four nights brilliant fireworks displays will be made.

The whole Coast is urged to attend the fair the first day, then every day following and enjoy the amusements arranged, the exhibits shown and make the fair grounds the meeting place of everyone on the Coast.

MEMBER EXECUTIVE BOARD OMITTED

Through an unintentional omission and a deeply regretted error, the name of Jos. O. Mauffray was not included in the report last week in the Echo of the members of the executive board of the Bay St. Louis Chamber of Commerce. Mr. Mauffray was one of the three appointed members of this executive board which President Geo. R. Rea named last week, the other members being Mayor Chas. Traub, Sr., and Chas. G. Moreau.

LOOKING AHEAD.

By 1940 there will be 35,000,000 automobiles registered in the United States, more than the number in the entire world today, so it is claimed by the National headquarters of the American Automobile Association. This statement was broadcast in the form of an appeal to its more than one thousand affiliations throughout the country and declaring it is imperative that streets and highways be utilized to handle the maximum flow of traffic with the view of aiding this far reaching program.

CHARGED WITH MISAPPROPRIATION.

Hon. W. J. Miller, state tax collector, has filed suit for the recovery of \$55,000, the amount of an alleged shortage in the accounts of former Sheriff Sam T. Karr of Winston county. In addition to the alleged shortage, 20 per cent damages and 6 per cent interest are asked, making a total of approximately \$65,000 which the former official is charged with misappropriating.

PAUL B. OHNSON.

Ever and anon the name of Hon. Paul B. Johnson of Hattiesburg is mentioned in connection with the governorship of Mississippi after the present chief executive's term is ended. While not wishing to disparage the qualifications of any other prospective candidate for that high office, The Echo believes that the electorate of Mississippi could go further and do worse in the matter of choosing a governor than electing Paul Johnson.

WILL BE REMEMBERED BY MILLIONS

It was just fifty years ago that Thomas A. Edison invented the electric light and the golden jubilee of that event is being celebrated during the present week. The genius of the "Wizard of Menlo Park" has no parallel in this or any former age and his name and fame will be remembered and honored by countless millions of the human family yet unborn.

GOOD SUBJECT TO TALK ABOUT.

The Echo cannot resist the temptation to "harp" upon the possibilities presented to the people of South Mississippi in the development of the dairy industry, and it will continue to impress, in its feeble way, upon their minds that their future prosperity depends in large measure upon their taking advantage of the opportunity that industry presents.

DON'T SELL PECANS TOO EARLY.

Despite the fact that this year's pecan crop is known to be very short, buyers of the nuts are offering very much lower prices than ever known before. The Echo's advice to all who have nuts for sale is to hold same until later when they will command better prices.

Any fool can keep an argument going.

SHORT CUT TO COAST FROM NEW ORLEANS.

Local citizens and particularly members of the Motor League of Louisiana, today had before them the quoted promise of Vice Chairman Nugent of the Louisiana Highway Commission that the commission would build the short cut from New Orleans to the Mississippi Coast if the next session of the legislature grants the bonding of the remaining two cents per gallon gasoline tax.

I. B. Rennison, chairman of the Motor League's "Short Cut to the Gulf Coast Committee," yesterday reported that Mr. Nugent had told him that the Highway Commission could put dredges to work and throw up a fill through the Louisiana marshes within six months, adding that the fill could then be topped with gravel or

The above telegram appearing in the daily press will be read with particular interest by every citizen of the Mississippi Gulf Coast, as it shows that our Louisiana neighbors are awake to the necessity for the early construction of the "Short cut" road from New Orleans to the Mississippi State line.

Bay St. Louis people know that Mr. Rennison is heart and soul for the proposed road and with the Motor League of Louisiana backing him, we feel very sure that "things will begin to happen," when the Louisiana legislature next meets.

But before then our own people should bestir themselves and fix upon a plan and manner of securing the funds necessary to build that link of the road from Bayou Cadet to Pearl river.

Chopping off some twenty-odd miles in the present highway distance between New Orleans and the Gulf Coast means a whole lot to this section, and equally as much to the motor tourists who may have occasion to travel over the road.

HIGHWAY AUDIT COMPLETED

After months of work a complete audit of the State Highway department has been filed with the Senate investigating committee.

It is reported that all the irregularities, denied by members of the highway commissioners, have been substantiated and when the investigators finally hand in their report at the coming session of the legislature there will be more than one member of the commission called upon to defend himself against charges of wrong doing.

Charles J. Moore, deputy State tax-collector, has been employed by the committee to work with Hon. Carl Marshall, counsel, in preparing the case for presentation to the investigating committee at its November meeting, at which time witnesses will be subpoenaed and questioned.

The long-drawn out extraordinary session of the legislature and its failure to enact any sort of a highway program was largely due to the opposition of members of the highway commission on account of irregularities given out in a partial report by the auditors immediately preceding the meeting of the law-makers.

The Echo's faith in the integrity of several members of the highway commission would suffer a severe jolt should it develop later that they were parties to any wrong-doing by the commission.

CARMEN MADE A MISTAKE.

Doubtless there are many of the union carmen in New Orleans who now realize that they made a mistake in not accepting the tentative agreement entered into by the president of the national labor union and the public service company. The strike was doomed to failure from the moment it was declared and from what we know of the matter the management of the company acted in perfect good faith from the beginning to the end of the strike. Now with the declaration of the head of the National union that he was through with any further effort to settle the differences of the carmen and company, conviction is forced upon the minds of the hundreds of idle men that it is not a healthy thing to "buck" capital.

WEALTH AWAITS OUR PEOPLE.

With green pasture for dairy stock for a longer season of the year than any State, Mississippi should in the near future become the greatest milk, butter and cheese-manufacturing State in the Union. It only remains for our citizens to realize the possibilities offered by the dairy industry and turn their attention to its development. And this southern section of our commonwealth leads all other portions of Mississippi as the ideal spot for the inauguration of a movement which will in a few years bring prosperity, wealth and happiness to its people.

IS THE WORLD GROWING BETTER?

It is almost sickening to read the telegraphic news in the daily papers. Day after day they carry accounts of murders, accidents, scandal, divorce, robbery and crimes of every description, and yet we are told that "the world is growing better." Do you believe it? The Echo is wholeheartedly a believer in the assertion. It is only because the facilities for news-gathering are better than they were years ago, and nothing in the shape of news in any part of the world escapes the notice of wide-awake reporters and it is "on the wire" instantaneously.

WE SAY IT AGAIN.

Be careful, motorists, and give no lifts to strangers on the highway unless you care to run the risk of being robbed, assaulted or maybe killed by some scoundrelly hiker. The papers are daily carrying accounts of such happenings.

The State fair held at Jackson last week is said to have been "the best ever." The displays in every development were greater and more varied than at any fair previously held in Mississippi, and were a revelation to the thousands of visitors who attended the exhibition. Especially fine was the live stock exhibit, and we are confident that it alone will redound to the good of the State.

IDOL OF MILLIONS OF VOTERS.

One of the New York papers printed an interview it had with Hon. Al Smith a few days since and among other questions asked him was: "Will you be a candidate for the presidential nomination in 1932?" The "Happy Warrior's" reply was that the next campaign was too far away for him to answer that question—that many things can happen in the interval between now and then and it had never been his practice to commit himself far in advance, or words to that effect.

Some men who have sought political preferment and suffered defeat at the polls have been forgotten by their party and the people as soon as such defeat was announced. But not so in the case of Al Smith. In defeat he is still the idol of the more than fifteen million voters who supported his candidacy last year, and he will be a factor and continue to exert an influence in the councils of the Democratic party such as no other presidential nominee has ever exerted.

As he says, the next national campaign is too far in the future to give it any thought; yet the signs on the political horizon at present all point to the former governor of the Empire State as the man who must lead the Democratic ticket to victory in 1932.

Long before then the voters who gave their support to Mr. Hoover will realize their mistake and know just how badly they were fooled by the promises dangled before their eyes by Republican spell-binders. Also before 1932 bigotry and intolerance will have been buried in the same grave that holds the corpse of that other un-American organization the Ku Klux Klan which was arrayed against Al Smith in 1928.

TUNG OIL.

Until a few years ago it was not known at the tung oil tree could be grown and be made profitable in this country, but experiments have proven that the tree grows and thrives in the South just as well as in their native country—China.

Tung oil is extensively used in the mixing of varnishes and importation of the oil from China amounts to more than 100,000,000 pounds annually.

John S. Goff, district manager of the bureau of foreign and domestic commerce, in an interview a few days

since said:

"Virtually 100 per cent of the product is now imported from China. American companies pay out as much as \$12,000,000 annually to Chinese merchants. And it has been proved that the tree will grow in Louisiana and other Southern states as well as in the valley of the Yangtze."

"The tree, which grows about the size of a pecan tree, produces a nut from which the oil is crushed. This oil in some varnishes takes the place of a resin and turpentine mixture, but cannot be termed a substitute.

"The tree will grow in a sandy well drained soil, in any locality where the mercury does not drop below 15 to 18 degrees."

"There are now several plantations scattered throughout the South, the Great Southern Lumber Company having at Bogalusa raising between 200 and 300 acres. The largest plantation is probably the one located in Alabama county, Florida, which had a total yield of 700,000 pounds on January 1, 1929. This country now plants about 13,000 acres while the demand would indicate that 120,000 acres are necessary."

"We receive many calls asking information concerning the tree. The tree starts bearing within three years and achieves its normal production in five years. A total of 100 trees can be planted to the acre and the yield usually averages \$1 per tree.

"The nuts fall from the trees and unskilled labor is all that is necessary to pick them up and carry them to any ordinary crusher. The American industry, young as it is, produces a very superior oil.

"This is due to the modern refining machinery in this country. The Chinese oil contains a certain percentage of acid and is of an amber color, while the American product is much lighter and makes a better mixture.

"The thousands of acres of "cut over" lands in Hancock county, and for that matter in other adjoining counties, in our opinion are especially suited to the growth of the tung oil tree. The soil is sandy and well drained, and the temperature rarely goes lower than 20 degrees in our coldest winters. These facts being true, it seems to the Echo that the matter of entering into the cultivation of the tung oil tree in this section offers another and most profitable industry for our people to engage in. Should any one feel interested in what they have to do is to write to the department of agriculture at Washington and they will be given full information as to where the nuts can be procured and to the proper methods for cultivating the trees."

BY YOUR SINS.

"Be sure your sins will find you out," so say the Good Book, and if that injunction had been kept in mind by thousands of men languishing in prisons and penitentiaries the population of such institutions would not be anything like what it is. Take for instance the men now garbed in iron chains who rob their employers and institutions, trashing in their honesty and all along down the line of infractions of the laws of God and man, it is the same old story.

Sympathy is to one mind, one of the most beautiful and praiseworthy of all human virtues. But how often it is misplaced bestowed on persons wholly undeserving of it.

Is your telephone in your Neighbor's home?

When you do not have a telephone of your own, but do your calling from the home of some obliging neighbor, you isolate yourself from friends and relatives who would like to get in touch with you.

Nowadays everyone who wishes to reach you expects to find your name in the telephone book. If it isn't there you are certainly to miss pleasant chats and delightful affairs that you'll never even know about without a telephone in your home.

You don't need to come to our office to arrange for service—resort now to make your last call from your neighbor's telephone a request for a telephone of your own.

Voting place to be at courthouse in Grand Jury Room, Precinct to be known as South Bay St. Louis.

Be it ordered by the Board that the former order of this Board entered at the regular September meeting of A. A. 1929, and recorded in Min. Book L page 404, providing that 3 cents imposed by the Court be not collected for said Gasolin Naphtha Alcohol, or other fuel which may be consumed by boats engaged in fishing, commerce between the States, or engaged in necessary duties as instrumentalities of the United States Government be and the same is hereby repealed.

Upon motion duly made and seconded, the following order of the State Tax Commission was read and ordered spread upon the minutes:

It appearing to the Satisfaction of the State Tax Commission of the State of Mississippi, after visiting the several counties of the State, conferring with the assessors thereof, and studying the values of the various classes of properties therein, the economic conditions thereof, and the methods employed by the assessors and supervisors in making and equating the assessments thereof, and after making a careful examination of the recapitulation of the assessment roll of personal property of the several counties and a comparison of the assessments contained in the assessments of the various classes of property on said assessment roll of Ha-

cock County, for the tax year 1929, as shown by the foregoing statement (appearing on the reverse side hereof) are reasonably equal and uniform with those in the other counties of the State. It is therefore ordered, that the chairman of this commission mail to the Board of Supervisors of said County a notice that the assessment of said County are acceptable to said commission and that copies of said rolls be made and certified to the tax collector and to this commission in accordance with the requirements of Chapter 323 Laws of 1929. Ordered and adjuged this the 20th of September 1929.

Chairman Certificate
I. C. Franklin, Chairman of the State Tax Commission of the State of Mississippi do hereby certify that the above is a true and correct copy of an order adopted by the said Commission on the date therein named and the Board of Supervisors of said County are hereby notified to identify with said roll as required by law and as directed in said order.

Witness my signature this the 20th of September 1929.
(Chairman) L. C. FRANKLIN.

METHODIST CHURCH SUNDAY SERVICES

Rev. C. C. Clark, pastor of the First Methodist church, announces that Sunday school and the morning preaching service will be held regular next Sunday but because of the revival in progress at the Baptist Church there will be no night service at the Methodist church, and likewise the Methodist church will again next Wednesday night omit a prayer service in deference to the Baptist revival. Wednesday night of this week and last Sunday night the Methodists paid a similar courtesy to the Baptist revival. Rev. Clark urges that many of his congregation as possible to attend the Baptist revival services.

STANISLAUS COLLEGE ECHOES

WORK AND PLAY AT S. J. A.

The three New Orleans papers have told you all about the game of last Sunday but let us add or word—the 1929 model Rock-a-Chaws is a 12 cylinder affair; last Sunday every cylinder functioned well as any opposing Jesuit player may attest.

The first quarter was slow. Both teams seemed to be feeling the other out, looking for a weakness. Stanislaus found the first hole and "Texas" showed his heels to many "would be" tacklers on his run of 60 yards for the first touchdown. Genard dove over the line for the extra point.

The Jesuits came back in the third quarter with new vim, taking the ball from their own 20 yard line they marched down the field for their one and only touch down. A forward pass made the extra point.

Seemingly the march of the Jesuits stirred up the Rock-a-Chaws the 12 cylinder in the person of our Coach functioned and Stanislaus again held on all cylinders for another tally. When the game ended, the ball was found in Jesuit territory where it had been for the greater part of the game.

For Stanislaus the whole line led by its captain George Falgout were there at all times; the backfield had so many flowers thrown at them that we have no more to send them from our garden of words.

Daigle, Ballatin, and Scheuing were outstanding for Jesuits.

Next Sunday the 27, the Rock-a-Chaws will entertain The Alloys eleven. Don't think they have an easy team to beat. They have given a good account of themselves in every game played so far. Come out to see a good game.

Sam Ballard had two dents in his musical instrument on return—Seems it came in contact with the cranium of a Jesuit admirer who had tried to take Sam's skull cap.

The third team was missing some of its good men Sunday, hence its defeat. They were against a superior team, in weight but above all in experience. The boys who played well were especially Andrade, Joe Witman and Schmidt.

The little courageous band of St. Stanislaus rooters, gave the organized Jesuit cheering club hot competition. They let every Jesuit know that they were not consumptives, and had full power of their lungs. Atta Boy! Rooters, Atta Boy!

The Seniors extend their most hearty thanks to Bro. Peter for allowing them to go to see the Jesuits game. This was a great privilege and the seniors are determined to prove themselves worthy of it.

The substitutes on Bro. Albert's third team, defeated the junior team by a score of 28-0. The junior team held the third team scoreless until the fourth quarter, where in the four touchdowns were made by a pass from Jimmie Dam to Raymond Kidd followed by two gains around end of five and three yards each brought the ball within two yards of a touchdown for the Juniors. Another pass on the next play was intercepted by the third team, causing the Juniors to lose their chance to score. Bro. Conrad dismissed his Juniors for a week, but will soon resume practice and be ready for any game they can schedule.

BAY HIGH WINS 3RD. VICTORY

Local Team Defeated Ocean Springs. With Tremendous Score of 39 to 0 In Good Game.

(By Wm. D. Hays, Jr.)

Bay High swept to its third consecutive Class "B" victory Friday by defeating Ocean Springs, 39 to 0. This victory put Bay High well in the lead in the Class "B" championship race.

The line played a very good game, and there were apparently no weak spots from end to end. The men charged fast and blocked and tackled hard. The forwards and backs worked together better than in any other game this season, and this was the chief reason for the improvement in scoring. The backs turned in a good all-around game also; in fact, every man on the team played well.

Both teams started off with straight football in the first half, the first four of Bay High's scores coming as the results of line plunges and end runs. In the third quarter, a pass, Maurigi to Ladner, was good for fifty-five yards, and two line backs went the ball over for a touchdown. A few minutes later, Maurigi smashed through the line and broke loose for a seventy yard run and Bay High's final score.

FORD CAR SALES SHOW BIG INCREASE OVER LAST YEAR

Local Manager Edwards Mo-
tor Company Gives Out
Figures Regarding Pro-
duction.

The Ford Motor Company this week issued the following statement: C. C. Jinks, manager of Edwards Brothers Motor Company, agents for Ford Cars, stated:

"Production of passenger and commercial cars during September 1929, totalled 161,305 units, a heavy increase over production during the same month of the preceding year.

"An increased production schedule has been set for October, calling for an output of 175,000 Model A cars and Model AA trucks. The program for October anticipates a gain of 47,000 units over the production of October, 1928, when 127,225 units were produced.

"Total Ford production for the first nine months of the current year aggregated 1,633,498 units. Advance schedules indicate that production of Model A cars and Model AA trucks for the full year will exceed 2,000,000 units.

"The program adopted for October means that the Rouge Plant will continue on a full five-day schedule. Employment in the Ford plants remains at a high level, with 108,138 employees working in the three large plants of the Detroit area on October 2."

THE COUNTRY NEWS- PAPER.

Mr. Arthur Brisbane scores a few bold's eyes in expressing this opinion of the country press:

The public, and advertisers especially, should not underestimate the value of the smaller newspapers, particularly the "country newspapers." Each is a public policeman and a source of information in its own locality.

Advertisers should remember that reading of country news papers read every line, advertising included, and they buy everything from paint to the roof to cement on the cellar floor, from the separator in the kitchen to the daughter's silk stockings. The greatest influence on public opinion rests with the ten thousand country editors.

We quote the above utterance, with full realization that many of the country newspapers" have long since abandoned their independence, seeking only to make the most money that can be "milked" out of a community.

The virtue of the old-time country editor lay in his independent thought, unbuyable and unimpeachable. This type of editor, personal in touch with city and county, might be wrong in his views but he always commands the respect of his foes as well as his friends.

Too many newspaper editors today labor under the impression that what the public wants is a "yes-man" and a "chortooter." The truth is that what subscribers of a newspaper usually desire is honesty and the truth in news, and intelligent thought and fearless integrity in editorials.

No country newspaper with these attributes has to beg the neighborhood to support the newspaper.

"College Love" Due At The A. & G. The First Collegiate Feature Talkie.

REAL COLLEGE SONGS HEAR FOOTBALL GAME A THRILLER

Universal has made college pictures in sound and dialogue. It is "College Love" made with Hollywood's most popular young screen personalities. It epitomizes on the screen the spirit of American sports.

"College Love" will be shown at the A. & G. Theatre starting next Wednesday and Thursday.

The synchronization includes all the noises, songs and music that made college what it is.

Screen fans will find it a perfect depiction of college life as it is lived today.

From the college hero to the fat boy and from the beautiful coed heroine to the college widow, the players all talk. The effervescent, "smart crack" conversation that passes back and forth on the campus, in the fraternity houses and sometime in the class-room has been written in the story in the form of dialogue.
